

KILN-DRIED DOUGLAS FIR LUMBER

PRODUCT VERSATILITY IDEAL FOR A WIDE RANGE OF USES

WEYERHAEUSER KILN-DRIED DOUGLAS FIR LUMBER

Grown in the Pacific Northwest, Douglas fir is a strong and durable species. Using our proprietary drying processes, we dry Douglas fir lumber in state-of-the-art kilns while maintaining the strength, straightness and versatility of the species.

Product Versatility Across Grades

- **Premium grade** is an attractive lumber product with a bright, clean appearance and #2 knot size. It's perfect for high-quality dealers and DIY markets.
- **#2&Btr** is a consistently straight, clean and attractive lumber grade with a Weyerhaeuser proprietary appearance specification. It's ideal for discerning dealers and builders.

CONSISTENT AND RELIABLE

- Our computerized manufacturing and grading systems are calibrated to produce straight lumber with a consistent appearance: day-to-day, month-to-month, mill-to-mill.
- Packages are wrapped to ensure lumber arrives clean and bright.
- Weyerhaeuser's shipping performance sets the industry standard by getting customers what they ordered—complete and on time.

Get the Products You Need, When You Need Them

Our sales associates offer exceptional service with a focus on getting you the product you need, when you need it.

Our kiln-dried Douglas fir is available in sizes 2x4, 2x6, 2x8, 2x10 and 2x12.

RENEWABLE AND SUSTAINABLE

- Weyerhaeuser has a reliable timber supply. Trees come from a secure, long-term, quality fiber basket that is sustainably managed.
- Weyerhaeuser's mills are certified to the Sustainable Forestry Initiative (SFI®) standard, and each piece of our lumber has a SFI Certified Sourcing label.
- Through our manufacturing processes, we maximize the use of each log by creating lumber, raw materials for consumer goods, and green energy.
